GENERAL INFORMATION

LOCATION

Shaw University, established for the higher education of Negro students, is located in the city of Raleigh, within ten minutes' walk of the post office, and fifteen minutes' walk of the State House. The campus, including approximately 15 acres, is a place of beauty, rich in historic associations. There are eight large substantial brick buildings and attractive playgrounds.

HISTORY

Shaw University had its origin in the formation of a theological class in the old Guion Hotel, a part of which is now the State Museum, in December, 1865.

Rev. Henry Martin Tupper, D.D., was its founder. After receiving his honorable discharge from the army, where he had served three years as a private, although often performing the duties of chaplain, he settled in Raleigh with his bride, Mrs. Sarah B. Tupper, October 10, 1865.

With \$500 which he had saved from his allowance in the army he purchased a lot at the corner of Blount and Cabarrus Streets. With a number of faithful followers he went to the woods, felled trees, prepared the timber, and built one of the largest two-story wooden structures in the city for a school. It was called Raleigh Institute.

In 1870 the property known as the General Barringer estate was purchased. The year following Shaw Hall was begun and finished in 1872. As Mr. Elijah Shaw was the largest contributor to the building (he gave \$8,000) the name of the school was changed to Shaw Collegiate Institute. In 1875 a charter from the State was obtained incorporating the institution under the name of Shaw University.

In 1873 ground was broken for the erection of a building to house the girls who were seeking educational advantages. Mr. Jacob Estey was a generous contributor to the building fund and so the building was named Estey Hall in his honor. From that time on the University has had a remarkable growth along material lines as well as in the number of students. During the twenty-five years of

the administration of Dr. C. F. Meserve great progress was made. A central heating plant was installed, sanitary conveniences arranged, and all the buildings put in good condition. In 1896 the old Barringer mansion was replaced by the beautiful Administration building which stands as an ornament to the University campus.

The most marked development of Shaw University has been its spiritual growth. From the foundation of the institution, the Bible has been the text-book, not only for those studying for the ministry but also for the entire student body. From the Theological Department have gone the denominational leaders of North Carolina and many other States. This department is preparing men who will direct the life and destinies of the colored people, not only in the home lands, but also in many parts of the foreign field. Some of her sons are laboring now in the dark lands of Africa.

Since the foundation of Shaw University, more than 10,000 young men and women have come within her walls and been trained in heart, mind and hand; they are today centers of influence in nearly every State in the Union and in foreign fields.

The school was founded for Christian education and still exists for that purpose.

EQUIPMENT

Shaw Hall, erected in 1871 in honor of Elijah Shaw, contains dormitories for men, class rooms, Y. M. C. A. room, and reading room.

Estey Hall, erected in 1874 and named in honor of Mr. Jacob Estey, contains dormitory for women, Domestic Science and Art laboratories, music rooms, Y. W. C. A. room and reception room.

The laundry is in the basement. Rooms are set apart in Shaw and Estey Halls as hospital wards, where the sick are given special attention by the school physician and matrons.

Greenleaf Hall, named in honor of Mr. O. H. Greenleaf, was erected in 1879. It contains the chapel and dining hall, and is centrally located to all other buildings.

Convention Hall, erected in 1881, named in honor of the Union Convention of North Carolina, formerly the dormitory for medical students, is now occupied by theological students. Improvements upon this substantial building have been made from funds raised by the Union Convention. It is the ambition of the officers of the Convention to make this dormitory second to none in attractiveness and comfort for ministerial students.

The Leonard Medical Building, erected in 1882, is now used for

the Natural Sciences. The laboratories are well equipped for individual work in all the courses offered.

Meserve Hall, formerly known as the Administration Building, was erected in 1896. Besides the offices, it contains the living apartments of the president and some teachers. Upon the retirement of Dr. Meserve as president the trustees voted to name the building Meserve Hall in recognition of his twenty-five years of service.

The Tupper Memorial Building, named in honor of the founder, Dr. Henry Martin Tupper, was erected in 1906, and is used for the Men's Industrial Classes. The office, drawing, machine, and supply rooms, with space for chair-seating and basketry, are on the first floor. The class and exhibition rooms are on the second floor. The blacksmith and bricklaying departments are in the basement.

The machine room is equipped with a Universal woodworker, rip saw, band saw, planes, jointer and many turning lathes. The blacksmith department is well equipped with down-draft forges, anvils and many tools.

CENTRAL HOT-WATER HEATING PLANT

All the dormitories and principal buildings with one exception are now connected with the central hot-water heating plant. Comfort and healthful conditions are, therefore, assured to every student and teacher throughout the school year.

THE SCHOOL YEAR

Students in all departments are expected to arrive on September 27th to register. Deficiency examinations will be held September 27th.

The dining-room will be open for supper Tuesday, September 27th.

The school will begin with chapel exercises Wednesday, September 28th, at 9:15 a. m. All students are expected to be present at that time.

THE COLLEGE FUND

Established in 1917 by the students in the College of Arts and Sciences for the purposes of aiding the work. Shaw University is the treasurer of this fund. Each member of the College class in 1917 has pledged to contribute annually to the College Fund. J. T. Aldrich, W. H. Allen, Annie D. Cogdell, Marie E. Brown, T. S. Royster, and Carrie B. Moseley constitute the advisory board which governs the fund.

BIBLE

As this is a Christian school, Bible study is a part of the regular school work. Two recitations per week are required during a student's entire course. The courses are so arranged that a comprehensive knowledge of both Old and New Testaments will be obtained by students completing four years of study.

MUSIC

A comprehensive course in music, both instrumental and vocal, is offered to all students in the institution who may choose to elect music as an extra. In addition to the technique, attention is given to an appreciation of the masters, past and present. So thorough has been the instruction in this department that many students have gone to the leading conservatories for further study.

BAND AND ORCHESTRA

I. *Band*. Instruction under a competent leader is given for one hour each day. Any student so desiring may join this band free of charge.

II. *Orchestra*. One hour each day is given to instruction to members of the orchestra. The orchestra furnishes music at chapel and on various other occasions. No charge is made for this instruction. An annual concert is given by the band, orchestra and Glee Club during the spring.

VOCAL MUSIC

Much stress is put upon vocal music. Besides individual instruction of the class work, much time is given to chorus work. A college choir gives opportunity for training. Several concerts are given each year for which special training is given.

LIBRARY

A well equipped and attractive library, consisting of about 5,500 books, is located in Library Hall, what was formerly the Hospital Building. It is supervised by a competent librarian who aids the students in their reference work and guides them in their general reading. Magazines and daily and weekly newspapers provide ample means for the information of students on current events. It is the aim of the administration to make the library one of great usefulness in the education of the students in technical knowledge and general culture.

The great aim of this department is to build up a strong Christian ministry, and improve the one that exists. This aim, it is confidently believed, can be best accomplished and the present urgent need of instruction for the ministry most satisfactorily met by pursuing the course of study herein indicated.

It is the purpose to make this department equal to the demands and needs of the churches and the people.

REQUIREMENTS FOR ADMISSION

The department will be open to persons of all denominations who are looking forward to the work of the ministry. They must, however, furnish satisfactory evidence of their piety and of their call of God to the ministry, and bring from the churches to which they belong certificates approving their course in entering upon their work. Those coming from other schools must present satisfactory testimonials as to character and standing in the institutions with which they have been connected.

To pursue with profit the studies of the course, the student must have completed at least the four-years Academic Course in the American Baptist Home Mission schools or a full equivalent. A diploma or certificate of graduation from such a course will be accepted in place of examination when the student enters.

Any student, with the approval of the President, will be allowed to pursue without passing the entrance examination any study in the course for which he is properly prepared. No diploma will, however, be given to any but those who pass the required tests for entrance, and who have completed all of the studies of the course and pass satisfactorily the required examinations.

COURSE OF STUDY

This course includes six separate lines of study, and can be completed in three years. The order of instruction is as follows, the number of hours of recitation each week being after each study:

DEGREE

The degree of Bachelor of Theology (B.Th.) will be conferred upon all who successfully complete this course, and pass the required examinations.

A SIX WEEKS' COURSE OF STUDY FOR PASTORS

There are many pastors and, possibly, other Christian workers who would like to take a course of study that will be especially helpful to them in their various fields of labor. In view of their time of life and home duties they are unable to pursue a course of study such as is laid down for college students, and they are also unable to be away from home as long as would be necessary to enter at the beginning of a yearly session and stay until its close. They

can, however, arrange to spend a few weeks in study during the winter. Recognizing these conditions there has been arranged a course of study at Shaw University especially adapted to the needs of these brethren. This course embraces Biblical interpretation, preparation and delivery of sermons, Old and New Testament history, church history, evangelism, and some of the more vital doctrines of the Church. This course begins the first of January and continues for six weeks.

MISSIONARY TRAINING SCHOOL

The Missionary Training School offers courses to fit students to become home and foreign missionaries, social-service workers, pastors' assistants, and Sunday-school leaders.

Besides class-room recitations there are opportunities for practice work in the city and neighborhood.

College students may elect one course a year in connection with the regular college work. All courses may be counted towards the college degree.

Students who are College or Normal School graduates may complete the course in one year; those who are Academy or High School graduates will require three years to complete the course. Special students who show fitness will be admitted.

FINAL STATEMENT

Hundreds of graduates and thousands of students have gone forth from this Institution to uplift the Negro race and enrich the life of mankind. Shaw now stands in the front rank of schools in North Carolina for the higher education of Negroes. It has been classed by the State Department of Education as an "A" school, both in Academy and in College.

With the ever increasing demands made upon the Institution for well trained leaders, there is need of larger contributions in money to carry on the work successfully. Friends of Negro education could do no better than to invest in the building up of Christian character among the young people of the State.

The Administration welcomes investigation of the work and the possibilities for larger usefulness, not only as it relates to colored people in our own land but also in other lands.
